

LS1 Series

LED linear luminaire

The LS1 Series provides quality and versatility for many applications. The LS1 Series offers efficacy up to 150 lm/W and up to 63% power reduction over traditional fluorescent lighting. The LS1 Series is designed to replace linear fluorescent continuous run, utility and strip fixtures with long-lasting, more efficient LED technology; lowering your total cost of ownership (TCO).

The LS1 Series is available in four-foot lengths, at various lumen outputs and color temperatures and with a standard frosted lens; offering the best combination of performance and value for your applications.

Applications: Industrial and Commercial Facilities, Warehouses, Manufacturing, Parking Garages and Retail.
