

Big League Dreams Sports Parks

Overview

Big League Dreams offers indoor soccer leagues in a 20,000 sq. ft. indoor pavilion for both youth and adults, as well as hosting softball tournaments and a multitude of special events. Flex Lighting Solutions was selected to replace their existing 1000W metal halide fixtures with 26 Essentials Performance LED high bays. It was important not only to save on annual energy and costs,

but to have durable fixtures that can handle being hit by soccer balls.

Results

The result was impressive with a reduction of wattage from 28,080 to 6,708, totaling 74% reduction while elevating light levels and decreasing glare and shadows. Big League Dreams immediately chose to use this fixture in other locations.
